

Programming Software update for Hyundai*-Kia* 2020 ADS2321 - Code D754908AD

July 2021

Advanced Diagnostics has developed an update to the ADS2321 key programming and pin code reading software for Hyundai*-Kia*. Both software functions have been updated with new applications.

1. Programming bladed, proximity and remote keys for various Hyundai* and Kia* vehicles.

All keys and remotes have to be erased before programming. The remote and the transponder are programmed separately. The software supports all keys lost situations (no working keys required). No additional cable or software are required.

What else will I need?

Smart Pro

2. Pin code reading for Hyundai* and Kia* DST80 transponder keys.

This software is the **first solution** able to read these pin codes without the need of an internet connection. Smart Aerial and a working key are required.

What else will I need?

Smart Pro

Smart Aerial

ADS2196 Software
for key programming

OFFER DETAILS

Cable	ADC2000
Software category	A
Smart Aerial / other accessories required	Smart Aerial required for DST80 pin code reading
Other software required	ADS2196 for DST80 key programming
