

**New Key Programming Software**  
**VAG® 2019**  
**ADS2292 - Code D753939AD**

**for MQB  
Platform**

November 2019

Advanced Diagnostics is pleased to announce the release of the ADS2292 key programming software for VAG®, supporting the popular MQB platform.

**What does the software do?**

The ADS2292 software programs bladed keys for numerous Audi®, Seat®, Škoda® and Volkswagen® models.

All keys and remotes will be erased before programming new ones. The software bypasses the security pincode during the procedure and programs the remote and the transponder at the same time. A working key and the Smart Aerial are required to complete the programming procedure.

**Note:** Currently this software is only available for Continental MQB Platform systems, and is not available for the Johnsons Controls systems, which can be identified as the Virtual cockpit style of instrument cluster. This software is available for Smart Pro only.

**What else will I need?**

Smart Pro

Smart Aerial

**OFFER DETAILS**

Cable	ADC2000
Smart Aerial required	Yes
Software category	A
Other accessories required	No
