

Free Software Update ADS222 Ford[®] Coded 2014 Code D745346AD

July 2015

Advanced Diagnostics have released a free software update available for ADS222 Ford[®] Coded 2014.

The update reduces the 'up to 5 hour procedure' to within 8 minutes for programming keys - when using the Smart Dongle. Without the Smart Dongle the wait time remains up to 5 hours if you do not have a Ford dealer login. For the vehicle application list, please see the table that follows or check the IQ tool on the Advanced Diagnostics website (North American vehicles are excluded).

For the vehicle application list, please see the table that follows or check the IQ tool on the Advanced Diagnostics website (North American vehicles are excluded).

Please connect your Pro tester and Smart Dongle to the AD Loader and update to both.

- Tester Version: 12.03 BETA
- Smart Dongle Version: 1.1.2

AD Software described in this release may not be applicable to all markets and countries: please consult with your local distributor or sales rep for further information.
